

The Summary of Benefits and Coverage (SBC) document will help you choose a health plan. The SBC shows you how you and the plan would share the cost for covered health care services. **NOTE: Information about the cost of this plan (called the premium) will be provided separately. This is only a summary.** For more information about your coverage, or to get a copy of the complete terms of coverage, <https://www.aetna.com/sbcsearch/getpolicydocs?u=071300-030020-001813> or by calling 1-888-982-3862. For general definitions of common terms, such as allowed amount, balance billing, coinsurance, copayment, deductible, provider, or other underlined terms see the Glossary. You can view the Glossary at <https://www.healthcare.gov/sbc-glossary/> or call 1-888-982-3862 to request a copy.

Important Questions	Answers	Why This Matters:
What is the overall deductible?	Participating: Individual \$2,500 / Family \$5,000.	Generally, you must pay all of the costs from <u>providers</u> up to the <u>deductible</u> amount before this <u>plan</u> begins to pay. If you have other family members on the <u>plan</u> , each family member must meet their own individual <u>deductible</u> until the total amount of <u>deductible</u> expenses paid by all family members meets the overall family <u>deductible</u> .
Are there services covered before you meet your deductible?	Yes. Emergency care; plus in- <u>network</u> office visits, <u>prescription drugs</u> & <u>preventive care</u> are covered before you meet your <u>deductible</u> .	This <u>plan</u> covers some items and services even if you haven't yet met the <u>deductible</u> amount. But a <u>copayment</u> or <u>coinsurance</u> may apply. For example, this <u>plan</u> covers certain <u>preventive services</u> without <u>cost sharing</u> and before you meet your <u>deductible</u> . See a list of covered <u>preventive services</u> at https://www.healthcare.gov/coverage/preventive-care-benefits/ .
Are there other deductibles for specific services?	No.	You don't have to meet <u>deductibles</u> for specific services.
What is the out-of-pocket limit for this plan?	Participating: Individual \$6,350 / Family \$12,700.	The <u>out-of-pocket limit</u> is the most you could pay in a year for covered services. If you have other family members in this <u>plan</u> , they have to meet their own <u>out-of-pocket limits</u> until the overall family <u>out-of-pocket limit</u> has been met.
What is not included in the out-of-pocket limit?	<u>Premiums</u> , <u>balance-billing</u> charges & health care this <u>plan</u> doesn't cover.	Even though you pay these expenses, they don't count toward the <u>out-of-pocket limit</u> .
Will you pay less if you use a network provider?	Yes. See http://www.aetna.com/docfind or call 1-888-982-3862 for a list of participating <u>providers</u> .	This <u>plan</u> uses a <u>provider network</u> . You will pay less if you use a <u>provider</u> in the <u>plan's network</u> . You will pay the most if you use an <u>out-of-network provider</u> , and you might receive a bill from a <u>provider</u> for the difference between the <u>provider's</u> charge and what your <u>plan</u> pays (<u>balance billing</u>). Be aware, your <u>network provider</u> might use an <u>out-of-network provider</u> for some services (such as lab work). Check with your <u>provider</u> before you get services.
Do you need a referral to see a specialist?	No.	You can see the <u>specialist</u> you choose without a <u>referral</u> .

All **copayment** and **coinsurance** costs shown in this chart are after your **deductible** has been met, if a **deductible** applies.

Does this plan provide Minimum Essential Coverage? Yes.

If you don't have [Minimum Essential Coverage](#) for a month, you'll have to make a payment when you file your tax return unless you qualify for an exemption from the requirement that you have health coverage for that month.

Does this plan meet Minimum Value Standards? Yes.

If your [plan](#) doesn't meet the [Minimum Value Standards](#), you may be eligible for a [premium tax credit](#) to help you pay for a [plan](#) through the [Marketplace](#).

-----*To see examples of how this [plan](#) might cover costs for a sample medical situation, see the next section.*-----

About these Coverage Examples:

This is not a cost estimator. Treatments shown are just examples of how this plan might cover medical care. Your actual costs will be different depending on the actual care you receive, the prices your providers charge, and many other factors. Focus on the cost sharing amounts (deductibles, copayments and coinsurance) and excluded services under the plan. Use this information to compare the portion of costs you might pay under different health plans. Please note these coverage examples are based on self-only coverage.

NOTICE OF CERTAIN MANDATORY BENEFITS — Texas

In compliance with State of Texas laws, we are pleased to provide you with the following notice about your health care coverage.

If any person covered by this plan has questions concerning the below information, please contact us. Our phone number and mailing address are on your member ID card.

Need inpatient care for a mastectomy or lymph node dissection?

Minimum inpatient stay: If due to treatment of breast cancer, any person covered by this plan has either a mastectomy or a lymph node dissection, this plan will provide coverage for inpatient care for a minimum of:

- (a) 48 hours following a mastectomy, and
- (b) 24 hours following a lymph node dissection.

The minimum number of inpatient hours is not required if the covered person receiving the treatment and the attending physician determine that a shorter period of inpatient care is appropriate.

Prohibitions: We may not (a) deny any covered person eligibility or continued eligibility or fail to renew this plan solely to avoid providing the minimum inpatient hours; (b) provide money payments or rebates to encourage any covered person to accept less than the minimum inpatient hours; (c) reduce or limit the amount paid to the attending physician, or otherwise penalize the physician, because the physician required a covered person to receive the minimum inpatient hours; or (d) provide financial or other incentives to the attending physician to encourage the physician to provide care that is less than the minimum hours.

Do you have questions about your coverage and/or benefits for reconstructive surgery after mastectomy?

Coverage and/or benefits are provided to each covered person for reconstructive surgery after mastectomy, including:

- (a) all stages of the reconstruction of the breast on which mastectomy has been performed;
- (b) surgery and reconstruction of the other breast to achieve a symmetrical appearance; and
- (c) prostheses and treatment of physical complications, including lymphedemas, at all stages of mastectomy.

The coverage and/or benefits must be provided in a manner determined to be appropriate in consultation with the covered person and the attending physician.

Prohibitions: We may not (a) offer the covered person a financial incentive to forego breast reconstruction or waive the coverage and/or benefits shown above; (b) condition, limit, or deny any covered person's eligibility or continued eligibility to enroll in the plan or fail to renew this plan solely to avoid providing the coverage and/or benefits shown above; or (c) reduce or limit the amount paid to the physician or provider, nor otherwise penalize, or provide a financial incentive to induce the physician or provider to provide care to a covered person in a manner inconsistent with the coverage and/or benefits shown above.

Do you need an exam for detection of prostate cancer?

Benefits are provided for each covered male for an annual medically recognized diagnostic examination for the detection of prostate cancer. Benefits include:

- (a) a physical examination for the detection of prostate cancer; and
- (b) a prostate-specific antigen test for each covered male who is
 - (1) at least 50 years of age; or
 - (2) at least 40 years of age with a family history of prostate cancer or other prostate cancer risk factor.

Are you planning to have a baby?

For each person covered for maternity/childbirth benefits, we will provide inpatient care for the mother and her newborn child in a health care facility for a minimum of:

- (a) 48 hours following an uncomplicated vaginal delivery, and
- (b) 96 hours following an uncomplicated delivery by cesarean section.

This benefit does not require a covered female who is eligible for maternity/childbirth benefits to (a) give birth in a hospital or other health care facility or (b) remain in a hospital or other health care facility for the minimum number of hours following birth of the child.

If a covered mother or her newborn child is discharged before the 48 or 96 hours has expired, we will provide coverage for post-delivery care. Post-delivery care includes parent education, assistance and training in breast-feeding and bottle-feeding and the performance of any necessary and appropriate clinical tests. Care will be provided by a physician, registered nurse or other appropriate licensed health care provider, and the mother will have the option of receiving the care at her home, the health care provider's office or a health care facility.

Since we provide in-home post-delivery care, we are not required to provide the minimum number of hours outlined above unless (a) the mother's or child's physician determines the inpatient care is medically necessary or (b) the mother requests the inpatient stay.

Prohibitions: We may not (a) modify the terms of this coverage based on any covered person requesting less than the minimum coverage required; (b) offer the mother financial incentives or other compensation for waiver of the minimum number of hours required; (c) refuse to accept a physician's recommendation for a specified period of inpatient care made in consultation with the mother if the period recommended by the physician does not exceed guidelines for prenatal care developed by nationally recognized professional associations of obstetricians and gynecologists or pediatricians; (d) reduce payments or reimbursements below the usual and customary rate; or (e) penalize a physician for recommending inpatient care for the mother and/or the newborn child.

Did you know you have coverage for tests to detect colorectal cancer?

Benefits are provided for each person enrolled in the plan who is 50 years of age or older and at normal risk for developing colon cancer. These benefits provide for expenses incurred in conducting a medically recognized screening examination for the detection of colorectal cancer. Benefits include the covered person's choice of:

- (a) a fecal occult blood test performed annually and a flexible sigmoidoscopy performed every five years, or
- (b) a colonoscopy performed every 10 years.

Did you know you have coverage for tests to detect the human papillomavirus (HPV), ovarian cancer and cervical cancer?

Coverage is provided for each woman enrolled in the plan who is 18 years of age or older for expenses incurred for an annual medically recognized diagnostic examination for the early detection of ovarian and cervical cancer. Coverage required under this section includes a CA 125 blood test and, at a minimum, a conventional Pap smear screening or a screening using liquid-based cytology methods, as approved by the FDA, alone or in combination with a test approved by the FDA for the detection of the human papillomavirus.

Did you know your plan may cover acquired brain injury services?

Your health benefit plan coverage for an acquired brain injury includes the following services when they are medically necessary:

- Cognitive rehabilitation therapy
- Cognitive communication therapy
- Neurocognitive therapy and rehabilitation
- Neurobehavioral, neurophysiological, neuropsychological and psychophysiological testing and treatment
- Neurofeedback therapy and remediation
- Post-acute transition services and community reintegration services, including outpatient day treatment services or other post-acute-care treatment services
- Reasonable expenses related to periodic reevaluation of the care of an individual covered under the plan who has incurred an acquired brain injury, has been unresponsive to treatment, and becomes responsive to treatment at a later date, at which time the cognitive rehabilitation services would be a covered benefit.

The fact that an acquired brain injury does not result in hospitalization or acute-care treatment does not affect the right of the insured or the enrollee to receive the preceding treatments or services commensurate with their condition.

Post-acute-care treatment or services may be obtained in any facility where those services may legally be provided, including acute or post-acute rehabilitation hospitals and assisted living facilities regulated under the Health and Safety Code.
